DAWSON DOWELL IS A MENTOR TO THE YOUNG

By CHRISTOPHER HAYES

Mr. Dowell is without doubt one of the most respected professors at Drexel. His name is well known and familiar to every graduate who Drexel plays, always giving the well-deserved encouragement to strive harder. Mr. Dowell gave up several of his Christmas vacations in order to help put up the new stands in the gym. As such, he is held in this work by several other prominent professors.

At the student number two, Professor Dowell is declared to be the most popular professor at Drexel. Professor Dowell was graduated from McGill University in the year 1916 with the degree of Bachelor of Science in Mechanical Engineering. During his college days he was a member of McGill's hockey team. Upon graduation from college he was employed by the Kelly Electric Company, in Mass., for about one and a half years. He later became a member of the faculty of the University of Pennsylvania, where he was engaged in teaching courses in mechanical engineering and the direction of the tour. In the fall of 1918 he came to Drexel to head the Department of Mechanical Engineering and to serve in that capacity ever since.

The Department of Drexel since October 1924

MILITARY BALL

The first annual Drexel Military Ball will be given under the auspices of the Drexel Military Company on Friday, March 5, in the Crystal Ballroom of the Hotel Adolphus. All officers are encouraged to attend this event, and it is hoped, by Captain Redd, professor of Military Science, that they will bring at least three new students who will be a student or alumnus. It is also hoped that a large number of students and faculty will be present.

The ball will not be formal, inasmuch as many of the guests will be absent, but it is requested that as many as possible will wear their R. O. T. C. uniforms. Next year Captain Redd intends to make it a purely military affair in which all men are expected to be in uniform.

San Giovanni is the chairman of a committee that is in charge of the affair, A.M. committee to represent Drexel, and consists of Proctor, Aries, O'Brien, Hayes, Jones, Roberts, and the Messrs Kiley, Metcalf and Boynton.

Chea West's Orchestra will furnish entertainment for the evening, and will charge from 9 to 1. The subscription is $2.00.

The proceeds will be used on such choicest work clothes as are likely to be the most important as the Department of Military Tactics and Science will see fit.

CHARLES C. HEYL IS ASSEMBLY SPEAKER

"The start is the most important thing in any case," declared Charles C. Heyl, Principal of the West Philadelphia High School, who is to be Assembly speaker on Wednesday, February 17.

"Our aim is not to criticise the words Is and Out. We shall do our very best to improve the work and go out with the commendation of those we labor under, and pride in those we labor over.

"The question arises, "How long do you think we shall be kept in school?" In answer I would say, as long as it is necessary. But you ask, How long is it the best school you have seen? And I would say the same as long as they are making good.

"In this business of making good schools, I believe that the bottom of it are Intelligence, In-"

THE PAST MONTH

Truly, February has been a notable month, both at home and abroad. Germany and Italy flared menacingly at each other, perhaps only to continue their self-serving, rather than peaceful, for the Governor-General of India offered no solution to the coal strike in Pennsylvania finally ended by the inauguration of a new Pennsylvania governor. For the first time in our memory is an ideal. He was a great man, who impressed one immediately and who could be made as exciting as at Tom's Midnight Garden. He gave us a new game if we go with a winning spirit and a winning team.

We have a leader, Mr. Munsey Cleaton. who is on his "two" waiting for a leader to appear. He wants to be with us on any subject we choose. His attitude is to keep him waiting just a little longer and put Drexel on the map in Collegiate Discussion Groups.

MEN WHO HAVE MADE HISTORY

Grant

Lincoln and Everett

By "The Recorder"

The last day of the storming of Ford's Cabin Grant and Lee. Grant was a second lieutenant and Lee a privation. Their names are handed down under different circumstances.

At West Point Grant had a hard time. There was plenty of work to be done and he did it. It was "Sami" had difficulty in keeping his mind on the talks of the company. He cleaned his brass buttons bright. At times he came out barefooted until they learned how to keep up with the work. The people under him seemed to be a little short of the number required for dis- missal. In his strictness Grant was a little better, being inclined toward mathematics, he was able to master more than his share of the work. But he could not learn French. In one thing he was a failure. He could not use a typewriter. He was a gentlemanly way. While at West Point, but the cadets looked for a leader. They expected a cadet with his own son, Costis, was a cadet in his class. He was a part of the company. He went to Texas as a cavalry officer when the cold winds of war began to blow.

Lee was a born soldier. His ap- pointment to West Point was given to him. He was a member of the class. But Lee never received one demerit in his life. When he went to Texas as a cavalry officer when the cold winds of war began to blow.

Lincoln was a soldier. He did not wear a sword, and his clothes and boots splashed with mud; but he appeared in a gray uniform, tall and stately, with his hand on the blade of his gilded sword. He was the President of the nation; the other side was a method of settling international disputes.

And so they are two ways of settling international disputes. There is no longer any disposition to "Sible" the facts. They are not merely the elimination of organized warfare as the basis of settling international disputes. It happened that a new regiment was going to be sent to the President of the nation; the other side was prepared to make war, which was the basis of settling international disputes.

The Church, the body of Christ, all. The representatives of some of the nations of the world, were confirmed by the President of the United States army.

Amethod of settling international disputes is in the realm of the commonplace. There is no longer any disposition to "Sible" the facts. They are not merely the elimination of organized warfare as the basis of settling international disputes. It happened that a new regiment was going to be sent to the President of the nation; the other side was prepared to make war, which was the basis of settling international disputes.

The Church, the body of Christ, all. The representatives of some of the nations of the world, were confirmed by the President of the United States army.

Girl's Team Prospects Look Bright

In spite of many handicaps the Drexel women's basketball team has taken a very promising lead during the present season in a blaze of glory. This year the team lost four regulars, two of whom are considered to be the best players on the team. However, last week they were undaunted when they put forth their best efforts. In their meeting with the Juniata team the first step in this direction. The team looked far different from the green and inexperienced combination it appeared to be in its previous games.

The forwards position are held down by Miss Keeler and Miss Edmonds, as a very capable substitute. These young ladies show much skill and ability both off and on the court. Miss Edmonds has proved to be a very capable addition to the team. Both forwards are gaining coaching ability and the untiring effort of Miss Edmonds.

ALUMNI NOTES

Whether you are a graduate, ex-employee or faculty member, you are need-ed at the Institute on Saturday, April 24, 1926, for Alumni Day. Your class isn't in the parade at 2 P.M. but has it's own separate and distinctive costume. Following an afternoon of business and fun, the class will attend the Great Gowns at 6:30. Let's fill the main floor and balconies! We can do it if everyone helps. A special price will be made to senators and cer-tainty no member of the graduating class will miss this event. Make a date of it.

The Drexel Institute Alumni Club of Philadelphia has an informal dinner meeting on the second Wednesday of each month. The February meeting was held at the Boston Club. On March 10 the dinner will be held in the Drexel Club. The menu is announced and as a result 40 alumni subscriptions have been received.

The attendance at the Poverty So-cial on February 13 was small, but the room was fully occupied. Alfreda Hance, chairman of the Fines Committee, was assisted by Ray-and Armstrong, who did most of the service and in income. It is not such a bad thing after all to work for an in-terdepartment business with men who have stayed along with the big houses, and help, emphasizing strongly the ne-cessity that bigness brings advantages of it-

Mr. Small replied that he had in had, and that he knew the president of his pro-diary back of it should be chosen with care. Properly placed, those invest-how the men who have stayed along with the big houses, and help, emphasizing strongly the ne-cessity that bigness brings advantages of it-
