

THE DREXEL TRIANGLE

Vol. II, No. 10

DREXEL INSTITUTE, FEBRUARY 15, 1927

Single Copies, 5c

NEW CATALOG SHOWS DREXEL'S GROWTH

Business and Engineering Schools Add New Subjects

With the issue of the new catalog for the year 1927-28, a number of changes in the courses have been made.

Since the last issue the institute has grown at an encouraging rate. One hundred and thirty-seven more students have been added to the day school while one hundred and fifty-eight have been added to the evening school.

Of the day school students eight hundred and two are taking four-year courses that lead to a degree. This is an increase of one hundred and sixty-six degree students over last year. There were only seventy-six new Freshmen added, hence ninety-six more students are working for a degree than were last year. Many of these are students who have returned to Drexel after an absence of a year or two, or who have continued after graduating from the diploma course.

The present day tendency in all colleges seems to be toward longer courses. At Drexel there has been a decrease of twenty-nine students in the two-year courses.

Several new subjects have been added to the Business Administration Department, most important among these are Finance 11, which gives an extensive treatment of Public Finance. This course deals with methods of raising money by governments, the expenditure of the same, the nature of public credit, financial administration; the budget, collection of revenues, custody of the funds and the public accounts.

Another important subject added to the business Administration Course is Income Tax Accounting. In this course the income tax laws are studied and a practical application is made of them in preparing income tax statements for various types of businesses.

Two economic courses have been added to the Engineering School to acquaint the future Engineers with the principles of production, consumption and distribution. This is the beginning of a series of more varied subjects to be added to the mechanical courses.

APPOINTMENT OFFICE

Drexel graduates and ex-students who are registered in new positions should register with the Appointment Secretary. We now have calls for the following:

Teacher of experience for courses in Domestic Arts and Household Management in a private school near Philadelphia. Salary ranges from \$950 to \$1200 with cost of living.

Dietitian for a summer camp opening the middle of June, and accommodating 100 girls. Salary \$75 a month and living expenses.

Dietitian in a hospital in North Carolina.

Home economics graduate to give lecture course to nurses in a Lancaster Hospital.

If you know of positions that may be filled by Drexel graduates, or summer positions that may be filled by Drexel students, please send this information to the Appointment Secretary.

MORE WOMEN TEACHERS

The American male school teacher faces extinction as complete as that of the American bison, according to George E. Davis, principal of Walnut Hills High School, Cincinnati. In 1880, Mr. Davis says, 43 per cent of the teachers in the United States were men. Today it is 11 per cent. These figures apply to public schools in general. There is a similar decrease shown in high schools. In 1911-12, 44 per cent of the high school teachers in the country were men. Now it is 33 per cent.

CAPTAIN REED ADDRESSES Y. M. C. A.

As one of the Thursday Noon Speakers, Captain Reed addressed the Y. M. C. A. in the Men's Union, February 3.

His topic was the lives of the religious leaders of all times, taken from H. G. Wells, "Outline of History."

He began with Buddha and touched on Mohammed, Confucius and Christ.

Buddha was born of rich parentage and lived a life of ease until about twenty-nine years old. Then he tried to solve the problem of life. After much study he framed his philosophy in the Buddhist religion that states that the good or evil in every life influences the happiness or misery of a future life.

Mohammed, contrary to Buddha, was born of a poor class. He began to frame his doctrine at the age of forty. In his time Mecca was the center of a Stone-Worshipping cult, but Mohammed combining his religion with this sect and succeeded in having himself regarded as Allah's prophet, much to his pecuniary profit. Mohammed preached a Heaven and Hell. His doctrine was two-fold! The lives and property are sacred among ye and 2. All ye, slave or princes, are of the same quality. This is true among the Mohammedans even today, who consider every one of the same quality.

Confucius, the Chinese sage, was a teacher and social worker. His theory was that every evil could be cured by a set of rules. He established the rules governing the duties of a father to son, mother to child, citizen to State, etc.

Of these religions, including the Christian, the modern developments differ radically from the doctrines as set forth by their originators.

DREXEL MARKSMEN MAY NOW QUALIFY FOR MEDALS

A new course was recently opened for members of the Drexel Rifle Club by the National Rifle Association. This course will enable students to qualify as Gallery Expert Riflemen; Gallery Sharpshooters and Gallery Marksmen. Seven hundred and twenty-five points out of a possible nine hundred are required for an expert rifleman; seven hundred are necessary for sharpshooter and six hundred and seventy-five for marksman.

Bronze medals will be issued by the N. R. A. to members qualifying.

The conditions of the course are: Three stages will be fired. A Stage will consist of two strings slow fire, each of two sighting shots and ten shots for record, and two strings of rapid fire, each of five shots. Stages will be fired in the following order. First stage, one string prone, one sitting, two strings rapid fire sitting. Second stage, one string prone, one kneeling. Third stage, one string prone, one standing, two strings rapid fire prone.

The course is open to members of the Rifle Club. Membership is open to all upon payment of a fee of \$1.00. Those interested are requested to see Sgt. Tepper, Coach of the men's Rifle Team.

A. S. C. E. MEETING

Next Friday night, February 18, the Civils will hold their last meeting of the term. Mr. Robert Farnham, engineer of bridges and buildings of the Pennsylvania Railroad, will speak on the "Design of the Thirty-second Street Tunnel." The tunnel which runs alongside of the college, has been closely observed during construction progress. A review of construction methods, together with theory, will make the meeting interesting. The meeting will be held in the Men's Union and the time is 8 o'clock.

P. M. S. T. OUTLINES WORK FOR NEW TERM

Promotions to Follow Competition, March 8

In a recent memorandum issued by Captain Reed, Professor of Military Science and Tactics, the objective of the Winter Term's work in R. O. T. C. was formally declared.

It reads: The objective of this unit for the Winter Term is, for Advanced Course Students; ability to think quickly and to move troops in various formations, under any conditions quickly and effectively; a complete mastery of the School of the Soldier, School of the squad, School of the platoon, Formal Guard Mount, and Parades and Reviews; ability to give commands incisively and correctly and the ability to observe details and correct mistakes.

For Basic Course students the objective is discipline, physical bearing and a co-ordination of mind and body.

In order to provide opportunity to reach the objective outlined, each advanced course student is given a command (excepting the staff officers). Each Junior has a command of two squads, and will be given not less than forty minutes of each drill period in which to train himself and his men.

On March 8, there will be an inspection and drill contest by sections and platoons. Each section will be judged on the School of the soldier, School of the squad, School of the platoon, Manual of Arms, command of Officer or Sergeant, general appearance and work of the guides.

From this group there will be eight officers commissioned. Four 1st Lieutenants and four 2nd Lieutenants; 1st Lieutenants to be chosen irrespective of their present grades.

Each Platoon will be graded on the combined grading for both sections, the command of the platoon leader, the execution of the movements in the School of the Soldier and Platoon and the correctness of movements of the Guides. (These Guides to be Juniors), and the discipline and bearing of the platoon.

From the winner of this group two Captains will be commissioned. If the winning platoon has a margin of fifty points the officer will be commissioned a Major.

Companies will be graded by a total of two platoons from these. One Lieutenant Colonel and one Major will be chosen.

THE FORUM

A new column will be conducted in the editorial page. This will be the "Student Forum," in which students will be given an opportunity of voicing their opinions. All letters will have to be signed as an evidence of good faith.

THE EDITORS.

- Feb. 25.—Basketball, Juniata away.
- Feb. 26.—Basketball, Susquehanna away. Junior prom in the Drexel court.

DREXEL A. S. M. E. TO DEBATE WITH PENN

In compliance with a request of the American Society of Mechanical Engineers, the Philadelphia Section of the Society, consisting of Drexel Institute and the University of Pennsylvania will debate on Friday evening, February 25. The debate will be held in the Drexel auditorium at 8.00 P. M. The question will be: "Resolved that coal can be burned more advantageously in powdered form than in any other way."

A preliminary debate within the Drexel branch was held on Thursday evening, February 3, from which the team to represent Drexel was chosen.

The personnel of the Drexel team will be: Best, captain; Paist, Klinger and Tepper.

In the preliminary debate, the affirmative side that favored Powdered fuel consisted of Paist, Chiaverelli, Aemisegger, Sukin and Klinger. The negative, or stoker side, consisted of Best, Scaccia, Aveson, Tepper and Sholl.

Messrs. Dowell, Kapp and Hahn were the judges of the debate which they finally awarded to the negative side. Mr. Billings sat in the audience as technical critic, while Mr. McDonald, of the English Department, acted as debating critic.

It is felt that the Drexel representatives will ably present their side of the question when the two colleges meet on February 25.

All Drexel enthusiasts are urged to attend the debate for it will be the first time the two colleges have met on a technical question.

MILITARY BALL PROVES HUGE SUCCESS

Friday evening, February 4, proved to be a gala affair for all Drexel students who attended the Second Annual Military Ball in the Gold Room of the Elks' Club, Broad and Wood Streets.

The ball was officially opened at nine o'clock when a line of students formed to file by the reception committee which consisted of Dr. Matheson, Mrs. Matheson, Miss Ruth A. L. Dorsey, Mrs. A. W. Howland, Mrs. Ollie W. Reed and Mrs. Henry E. Kelly.

Dancing continued until 1:30, when the orchestras played "Home Sweet Home" as a gentle reminder to all Drexelites to depart.

The cadet officers of the Drexel unit were all dressed in uniform with bright shining boots and Sam Brown belts. The members of the men's rifle team and the other students appeared in evening dress, while the co-eds wore evening gowns of brilliant hues with Spanish shawls gracefully draped around their shoulders.

Several army officers stationed in Philadelphia attended the ball. Colonel and Mrs. Hunt, Major and Mrs. Ellis and Captain and Mrs. Reynolds were among these.

The ball proved to be a financial success and will be repeated by the Class of '28.

The R. O. T. C. Unit and the Men's and Women's Rifle Team were the sponsoring bodies to the dance.

ALUMNI CARD PARTY

Reserve the date, Friday evening, March 11 for the big Alumni Card Party. Details will be published in the next issue of the Triangle.

A NIGHT IN BOHEMIA

A "Night in Bohemia" will be held in the Drexel Court Saturday evening, February 19. The affair will be for the Engineering Alumni of the College. The class of '27 is invited and will help materially in making a success of the night.

The 1927 Class will present entertainment. The entertainment personnel has not yet been chosen, but will consist of persons affiliated with the "Cap and Bells."

DREXEL TO CONDUCT DRAMATIC CONTEST

Eight Colleges to Be Represented

Preparations are being made for the finest dramatic presentation of the present scholastic year, when the annual tournament of the Pennsylvania Intercollegiate Dramatic Association, will be given in the Drexel Auditorium on the evenings of March 4 and 5.

The stage in the Auditorium will be altered to suit the conditions, and two full bills of plays will be given on the aforementioned evenings. Tentative admission prices are 50c for general admissions, and \$0.75 for reserved seats for any one evening. On Saturday, at 5:30, a dinner is being planned in the Picture Gallery for the players and other interested individuals, at the cost of \$1.00. On Saturday evening also the loving cups will be presented for first and second prizes, respectively, and there will be dancing in the court after the plays. Discussion groups, and other activities are also being planned.

Rapid progress is being made on the Drexel Dramatic entry, a one act comedy called "The Scheming Lieutenant," by Richard Brinsby Sheridan, with a cast of six.

Reports have come that Gettysburg College will stage "Aria da Caps." Haverford will give "Rising of the Moon," Penn State College will present "The Valiant," and Juniata College is considering "The Clod," or "A Game of Chess."

All in all, the prospects are encouraging for two really fine, worthwhile performances, that the student body should be eager to attend. Reserve the nights of March the fourth and fifth on your calendar as red letter nights. You will never have a better opportunity to support your own dramatic club, and at the same time enjoy two profitable and interesting evenings. Tickets will be on sale at least a week before the first performances.

A. I. E. E. TO HOLD STUDENT CONVENTION

Drexel will be the scene of a Student convention of the A. I. E. E. Monday, March 21. Eight Colleges will send their representatives, including such universities as Princeton, Lehigh, Swarthmore and Pennsylvania.

Four student papers will be presented in the morning sessions in the auditorium.

Lunch will be served in the Art Gallery.

An inspection of the Drexel plant will follow in the afternoon, and dinner in the court in the evening. There will also be entertainment provided.

The final meeting of the Philadelphia Section of the A. I. E. E. will be held at 8.00 P. M. in the Auditorium

About two hundred and fifty guests are expected. To show the visitors around the building, all Junior and Senior Engineering students will be excused from class.

ALUMNI DANCE

On the evening of January the 15th, through the worst blizzard of the season, a group of students, alumni and their friends gathered in the Court at Drexel for the Annual Dance of the Alumni Association. Battling with the elements plus anticipation of a royal good time seemed to bring every one forth in a gala mood—Fil Fry's Orchestra proved to be sufficiently interesting to keep them that way until the strains of the last waltz died away. Next year it is hoped every one who reads this will come. Watch for the date. Do not let an especially happy time pass by next year without you.

The Drexel Triangle

Official newspaper published by the students of Drexel Institute, 32nd and Chestnut Streets, Philadelphia. Issued on the first and fifteenth day of each month during the college year.

Entered as second-class matter, October 15, 1926, at the Postoffice in Philadelphia, Pa., under the Act of March 3, 1879.

OUR LIBRARY SITUATION

Now that the Library is closed and both faculty and students are seriously inconvenienced, it seems a good time to consider the whole library situation.

In its early years the Library was a quiet place for reference work and recreational reading. Then the crowded condition of the building and the increased number of students sent many into the Library seeking a place for study. In most college libraries a study hall is provided in a basement room with a separate entrance, but here at Drexel, owing to the lack of floor space, one room has to suffice for book room, reading room and study hall. This confusion in the purpose and use of the Library is greatly to be regretted. Until more space can be secured for a study hall, the quiet of the Library should be a matter of student control.

To avoid proctors and other forms of disciplinary control the self-respecting student should conduct himself with due consideration for the comfort of others.

With the new equipment installed, with the book collection constantly augmented by new accessions, Drexel will have a library second to few colleges of its size. May we not count on the intelligence and sportsmanship of our students to demand a decorum which insures a quiet study hall.

ALLEGED OPPOSITION TO COMPULSORY MILITARY TRAINING

There is an alleged undercurrent of feeling against Compulsory Military Training at Drexel. This has openly been stated by some of the students who are most active in extra curricular work. These have several times contemptuously referred to the R. O. T. C. as "Boy Scouts," at the same time forgetting that the college men that make up the Reserve Officers' Training Corps are the potential leaders of the next great emergency.

Now is there truly a feeling of opposition to compulsory Military Training as alleged? If it exists it certainly does not among the group that takes advanced Military Training; a group that is growing by leaps and bounds; growing so fast that it has already exceeded the initial appropriation from the War Department and has resulted in an application for larger payrolls.

What little opposition there is exists among a few Freshmen. These first year men must start from the very bottom and learn the fundamentals of drill. This does not allow them an opportunity for self-assertion and leadership a quality that is native to almost every college man.

Proof that this opposition to Military Training does not go beyond the freshman year may be seen in the fact that Sophomores given a position as squad leaders, able to assert their leadership, enjoy Military drill. In fact several Sophomores who as Freshmen were bitterly opposed to compulsory military training, now look forward to the weekly drill period on Wednesday and are even seriously considering taking the advanced course.

To those Freshmen who have a feeling of resentment let it be remembered that before one can become a good leader he must first learn to be a good follower.—Charles Seltzer.

BENJAMIN G. LAMME

The portrait of Benjamin G. Lamme was recently presented to Drexel Institute by the Westinghouse Electric & Manufacturing Company.

Benjamin G. Lamme was born on a farm near Springfield, Ohio, in January, 1864. He graduated from Ohio State University in Mechanical Engineering in 1888, having been out during the

year '86-87 on account of his father's illness and death.

He entered the employ of the Westinghouse Company in 1889, about a year after graduation, at the munificent salary of \$30.00 per month. Scarcely six months after entering the employ of the Westinghouse Company, he calculated the electrical design of the double reduction gear railway motor which was put on the market early in 1890.

In 1892, Lamme began work on the induction motor and produced the first successful distributed winding motor of this type. In 1892, Mr. Lamme designed great polyphase generators for lighting the World's Fair. He also designed the synchronous converter, large induction motor and other machines which were exhibited at the Fair. At this same time, he was designing railway generators whose performance startled the engineering world.

About the year 1895, he conceived the idea that led to the development of the well known type "C" induction motor with the squirrel cage rotor.

His great work on the synchronous converter, however, he regards as his greatest achievement. For years, he fought the battle for the synchronous converter almost single handed. He won out, and this is now the accepted machinery for converting alternating into direct current.

For years he made a study of the young men who come to the Westinghouse Company from colleges all over the country. His analysis of their ability and characteristics was of the greatest benefit, both to the young men themselves and to the company. He devoted a large part of his time to them, in discussing their problems and in giving actual instruction in his design school.

Mr. Lamme received the highest honors from the American Institute of Electrical Engineers, in being elected one of the two members from that body on the Naval Consulting Board during the World War and being chairman of the Inventions Committee on that Board. Some years ago, he was awarded the Edison Medal by the American Institute of Electrical Engineers for his engineering achievements. All of these were in consequence of his work and ability as an engineer; he was in competition with engineers only. He died in August, '25.

DREXEL DOWNS SUSQUEHANNA

Schwartz and Hey Star as Engineers Win Easily, 34-17

On Friday, February 4, a hard-fighting Drexel five took their revenge on the Susquehanna cagemen to the tune of 34-17. At times the home squad worked well and by taking advantage of the breaks was able to overwhelm their opponents. Drexel jumped into the lead at the start when Hey caged a shot from the 15-foot mark and Schwartz followed it with a toss from the foul line. During the heated fray that followed Fortin was called for blocking and Dickson, of Susquehanna, made good his free throw. On the tapoff that followed, Susquehanna secured the ball and Delay dropped it through the net from the side court. The rest of the half was poorly played by both teams. Poor passing and numerous scrimmages tended to make the game slow. The half ended with both teams deadlocked at 10 all.

In the second half Drexel five seemed to find themselves and completely outplayed their opponents. Dobbins, substituting for Fortin at center, was the pillar around which the new offence was built. Short snappy passes and good shooting soon put Drexel far in the lead. As the final whistle blew Schwartz caged a long shot that doubled the score.

The playing of the Drexel five during the last half gave promise to a bright future. The offensive playing of Swartz and Hey featured while Eastwood and Dixon showed up well for the visitors.

The line-up:
Drexel Susquehanna
Schwartz..... forwardHenry
Hey..... forwardDelay
Fortin..... centerEastwood
Gregory..... guardGrace
Foley..... guardDixon
Referee—Rumsey.
Umpire—Abrams.

Fieldgoals — Drexel — Schwartz, 5; Hey, 5; Gregory, 1; Dobbins, 1.

Susquehanna—Delay, 1; Dixon, 3; Walls, 1.

Foulgoals—Drexel, Hey, 4; Fortin, 3; Schwartz, 2; Foley, 1.

Susquehanna—Henry, 1; Eastwood, 2; Dixon, 4.

Substitutions—Drexel— Dobbins for Fortin, Dawson for Schwartz. Custer for Gregory, Davis for Hey.

Susquehanna—Wall for Henry, Duckleberger for Dixon, Smaltz for Grace.
C. E. MASCHAL.

DREXEL CO-EDS TIE ONE AND LOSE ONE

With an entirely new line-up, Drexel's Co-Ed basketball team held the strong Ursinus Sextette to a 23-23 score, Tuesday afternoon, February 8, in the Drexel gymnasium.

Only three members of last year's varsity, the Misses Keeler, Lummis and Radford were on the Blue and Gold team, the rest being Freshmen. Eleanor Henderson, a Freshman and Grace Keeler, a senior were the star forwards in the Drexel attack.

The expert passing by the Drexel Co-eds was a revelation to the spectators who marvelled at the accuracy in which the ball was continually twisted around the Ursinus players and placed in the visitor's territory. And this by Freshmen. It is easy to see that in a few years Drexel will have a team that will rank with the leading women's college squads in the East.

It was only the rally by Miss McGarvey, Ursinus substitute who placed in the game two minutes before the close, that Ursinus was saved from defeat.

In a game played February 10, against the University off Pittsburgh, the Drexel lassies, lost, 33-11.

Although the home team put up a gallant fight, it was no match for the more experienced team from the Smoky City.

DREXEL LOSES TO MUHLENBERG

Fights Hard, But Loses, 38-20

While the majority of the Drexel student body was resting from a strenuous night before, the basketball team journeyed to Allentown to meet the strong Muhlenberg courtmen. Armed with an abundance of confidence the Drexel men were primed for victory. Coach Lang started the usual lineup and the game began with a rush. Although they fought hard, Drexel lost, 38-20.

On the tap off Muhlenberg secured the ball. In the sharp scrimmage that followed Dickert of Muhlenberg, was caught holding and Fortin drew first blood from the foul line. After a few minutes of fast passing Schlums received a perfect pass from Lawson and dropped the ball into the hoop from under the backboard. Borrell followed with a long shot and again Schlums cut under the basket for a score. At this point Drexel rallied and Gregory, cutting down the side court, dropped in a two-pointer. Hey dropped in a free throw and Foley evened the score with a long shot from the side line. Dobbins substituted for Fortin and the rest of the half was hard fought with accurate passing and close guarding keeping the score low. As the half ended Coldren dropped a free throw through the net putting Drexel on the short end of a 12-8 score.

Muhlenberg opened the second half with a rush. With fresh men at the forward positions they fairly rushed the Drexel men off their feet, and ran the score up to 28-9. At this point Hay scored a long shot from the center of the floor and started a Drexel rally. Hey, Schwartz and Foley each scoring a two pointer. The fast playing and hard fighting led to many fouls which were disastrous to the Blue and Gold.

The final score would indicate that the Muhlenberg five had things their own way, but this was far from true. The game was hard fought throughout, and only the close guarding and reserved strength of the Red and White kept the Drexel men from scoring. Gregory recovering from a recent illness, played a good defensive game for Drexel, while Captain Foley, showed up well on the offense. Schlums, Coldren and Borrell starred for Muhlenberg.

The line-up:
Drexel Muhlenberg
Schwartz..... forwardLawson
Hey..... forwardColdren
Fortin..... centerSchlums
Gregory..... guardBorrell
Foley..... guardDickert
Referee—

Field goals—Drexel—Hey, 2; Foley, 2; Schwartz, 2; Gregory, 1.

Muhlenberg—Lawson, 2; Coldren, 3; Schlums, 3; 8Bo8rrell, 3; Dickert, 1; Paschall, 1.

Foul goals—Drexel—Hey, 2; Fortin, 1; Schwartz, 1; Tucker, 1; Dobbins, 1. Muhlenberg—Lawson, 2; Coldren, 3; Schlums, 3; Clyner, 2; Slemmer, 2.

Substitutions—Drexel—Tucker, Dobbins, Custer.

Muhlenberg—Empie, Clymer, Gould, Slemmer, Paschall, Kiefer

JUNIATA PROVES TOO STRONG FOR DREXEL

Drexel played a gallant game against Juniata College, but lost on the Drexel Court Thursday afternoon, February 10, by a 38-22 score.

The Juniata College Squad was stronger in every respect than the Gold and Blue five, although most of their points were scored by long shots from midfloor. The Drexel defence centering around Captain Foley, kept the enemy out of the home territory, but the unerring eye of Eisenhart, who scored eight field goals, and Weller, who scored a like amount, played havoc with the score.

Schwartz and Hey were the redeeming features of the Drexel offense, scoring between them five field goals.

Drexel Juniata
Hey..... left forwardWeller
Schwartz.... right forward ..Esenhart
Dobbins..... centerGrove
Gregory..... left guardGies
Foley..... rght guardDouglas
Referee—Abrams, Rumsey.

Feld goals—Hey, 2; Schwartz, 3; Dobbins; Gregory; Foley; Feller, 8; Eisenhart, 8; Giles. Foul goals—Hey, 2; Schwartz, Dobbins, 2; Fortin, Weller, Eisenhart, Beery, Douglas.

DREXEL BEATS UPSALA, 35-31

Tucker, placed in the game as a substitute in the last few minutes of play, helped Drexel down the Upsala team on the latter's court by the score of 35 to 31 last Saturday night.

Drexel was on the short-end of a 12-2 score in the first quarter of the game.

All along the Engineers trailed until three minutes before the end of the game, when Schwartz tossed in a two-pointer, tying the score.

Then Tucker, placed in the game at the "eleventh hour," scored four field goals that put the Gold and Blue ahead. All through the game Schwartz and Foley scored heavily, each gaining 9 points.

Hey and Dobbins came through with a few field goals that helped in the victory.

CAP AND BELLS

The evening of Friday, February 11, saw the arrival of the long expected event, the "Cap and Bells."

At 8.15 the orchestra opened the performance with an overture. This was followed by the first act put on by the Freshmen girls. This was a presentation of dances portraying different characters in life and was fairly well rendered.

The Sophomore boys put on their act, a sketch entitled "On a Raft." This was rather funny, but seemed too artificial.

The Senior girls next put on a sketch entitled "Christmas Eve." The chief

feature of this was the criticism of the various people about the school, both faculty and students.

The Junior boys then presented "Yes and No," but what the title had to do with the act is not evident. It was a presentation of songs and jokes, interspersed with a Charleston exhibition.

The Sophomore girls presented "An Old Sweetheart of Mine." This was (Continued on Page 4)

When the plutarchs start plutarching

AT THE night sessions, when class philosophers vie with class Merry Andrews in deciding the heavy problems of the world—or burlesquing them — notice the royal guest, Prince Albert. Chiming in with the spirit of the occasion. Filling the air with the finest tobacco-aroma ever.

Do you smoke Prince Albert? It will bring you more pleasure and satisfaction than you ever thought a pipe could give. The instant you throw back the hinged lid and release that wonderful P. A. fragrance, you suspect you are in for some grand smoke-sessions.

The very first pipe-load confirms your suspicions. Cool as a gate-tender. Sweet as the week-end reprieve. Mild as the coffee in Commons—mild, yet with a full body that satisfies your smoke-taste completely. Get yourself a tidy red tin this very day.

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

ALUMNI NOTES

- Plan to come HOME for Alumni Day, Saturday, May 7. A cordial welcome awaits you.
- '05—Harry M. Naugle is President of the Columbia Steel Company with works at Elyria, Ohio, and Butler Pennsylvania.
 - '05—Rudolph Weaver, Director of the School of Architecture, University of Florida and Architect to the Board of Control of Institutions of Higher Learning, has recently been appointed by Governor Martin to the State Board of Architecture, for a period of four years. The State Board of Architecture is composed of five members and operates under a legislative act of 1915. The duties of this Board are to determine, by examination or otherwise, the qualifications of applicants who desire to practice architecture in Florida.
 - '06—Irma A. Watts has been elected an alternate delegate to the National D. A. R. Congress from the Harrisburg Chapter.
 - '06—Edith Hollowell is Assistant News Editor with the Public Spirit of Hatboro, Pa. Miss Hollowell is also press chairman for the local woman's club.
 - '11—Juan M. Arellano, with his wife, has recently been a Washington visitor. Mr. Arellano is the designer of the new Legislative Building in Manila and also of other of the Philippine's most impressive and modern structures. He is as proficient with the palette and brush as with the pencil. A large collection of his vividly colorful paintings won the plaudits of Washington's patrons while on exhibition recently at the celebrated Art Club.
 - '21—Mrs. F. H. Taylor (Mary Alice Hubbs) now lives at 2588 Madison Avenue, Flushing, New York.
 - '27—Louise Stolzenberg is secretary, Appointment Bureau, Bryn Mawr College, Bryn Mawr, Pa.

the graduating class in the Alumni Association. A 100 per cent membership of the Class of 1927 is the aim.

The treasurer reported that he had secured a 6 per cent guarantee mortgage bond of \$1000. This makes a total of \$3500 invested in the Life Membership Fund, the interest only of which is used for current expenses.

The Membership Committee reported 562 members; 74 life members, 120 paying life membership, and 368 annual members as possible during February and March as we must reach our goal of 1000 members for 1926-27.

HARRIET E. WORRELL,
Alumni Secretary.

NEWMAN CLUB NOTES

The initiation of the new members of the Newman Club was held at Drexel Institute Tuesday evening, February 8. The candidates were taken to the school gymnasium under the charge of an initiation committee directed by George Elias and Irene Engals, where after being put through the paces, the incoming members were introduced to the others. Then Mr. Bailey read the history of the Newman Club and excerpts from Cardinal Newman's writings. The Reverend Chaplain Keogh spoke of the illustrious life of this man and of the aim of the Club to live up to his teachings. Thomas Cusack, the president, gave a short address of welcome and the gathering then adjourned to the Art Gallery where refreshments were served and an informal dance held. The chaperons were Lieutenant and Mrs. Kelly, Mr. and Mrs. Dillon, and Professor Leonard.

The eleventh annual convention of Middle Atlantic Province of the Federation of College Catholic Clubs will be held on February 18, 19, and 20. The Convention will open on Friday evening with a formal ball in the ballroom of the Hotel Adelphia.

A business meeting of the delegates will be held Saturday at Newman Hall, U. of P., 3743 Spruce Street. At one o'clock, there will be a general meeting of the members of all the clubs in the Province. Election of officers for the ensuing year will be a part of the regular business at this meeting. The girls of the Drexel Newman Club, assisted by Alumnae of the Province, will entertain at tea.

Sunday morning, Mass will be celebrated by the Rev. Father Mellon, in the Cathedral Chapel at nine o'clock. All members of the Province will receive Holy Communion in a body. Following the Mass, a Communion Breakfast will be served at the Hotel Adelphia. The speakers at the breakfast are Hon. James A. Flaherty, Supreme Knight of the Knights of Columbus, and Hon. Harry S. McDevitt, Judge of Common Pleas Court No. 1. This officially ends the Convention.

CAP AND BELLS

(Continued from Page 3)

very well done, though parts of the speech were not audible to the audience.

After this came the hit of the evening. It was entitled "Plus Fours," and was produced by the Freshmen boys. This was similar to "Yes and No," but was presented in a much better manner, as was witnessed by the fact that they received two encores.

The Junior girls next put on "Life Is But a Song" in which they portrayed every stage of life with the aid of various songs. This act was well rendered.

The last act was that of the Senior men who put on a farce called "The Passing Show of 1927." This act started out very well, but lost its appeal to the interest of the audience toward the end.

After the performance those who so desired adjourned to the Court, where dancing was made possible by a volunteer orchestra of Don Rowe and others.

During this dance Neely, of the Sophomore Class, presented the Y. M. C. A. and Y. W. C. A. cup to the Freshman Class winners of the contest.

The night was financially successful for the house was sold out

ALUMNI

Membership in the Alumni Association includes a subscription to The Drexel Triangle. Each number, and there will be 18 of them, will be full of interesting items of student and alumni news. You can't afford to miss them. Mail this coupon today. Don't delay.

CHICKEN AND WAFFLE SUPPER

Can you resist them? Delicious chicken and waffles, plenty of them, served by the Training School for Nurses of the Children's Homeopathic Hospital on Thursday, February 24th, 6 to 9 o'clock, all for \$1. And a commission on tickets sold to Drexel alumni and friends will be given to our Scholarship Fund. The Hospital is at Franklin and Thompson Streets and may easily be reached by taking Car 51 or 47 on 9th Street to Thompson. Tickets may be secured through the Alumni office or through Miss M. Dorothy, '23, Dietitian, at the Hospital. Be sure to mention you are from Drexel. The Drexel alumni who attended the chicken and waffle supper last October know from experience that a treat is in store for them. Don't miss it! Secure your tickets now.

ALUMNI EXECUTIVE COMMITTEE MEETING

The regular monthly meeting of the Executive Committee of the Alumni Association was held on Monday evening, February 7, with ten members present. The treasurer's report showed a balance on hand of \$130.98, with outstanding bills amounting to \$272.21. The appeal for contributions resulted in a gain of \$242, which helped very much in reducing the debt of the Association. The Alumni Dance showed a profit of \$64.

There was an informal discussion of the proposed club house and each member was requested to discuss this with Drexel acquaintances and report to the Committee.

Plans for Alumni Day were discussed. The Committee expects this to be the biggest and best Alumni Day in the history of the institute and as it will be held in connection with the May Festival, there will be much of interest and entertainment for you.

A letter from T. T. Mather, '27, Editor of the 1927 Lexerd was read, asking that the Alumni Association reserve space in this year's book. No action was taken as details of terms had not been received, but the Committee expressed interest in taking this space.

The committee discussed ways and means of interesting the members of

[Upper classmen in smoke-shop, buying Camels]

Top in quality—first in popularity

EXPERIENCED smokers have proved it. Discriminating tobacco lovers by the million rediscover it each day and every evening as the friendly Camels are lighted. There simply is no better cigarette made. The choicest Turkish and Domestic tobaccos grown are bought for Camels—and such blending for taste and fragrance! Only the largest tobacco organization in the world could produce a cigarette like Camel.

In terms of popularity, Camel quality has reflected itself in the greatest preference ever given a cigarette. There

never was a tobacco word so famous, or a cigarette so good. First in popularity, because the best—that is the story of Camel, the biggest cigarette success ever known.

If you want such smoking enjoyment as you never hoped to find, just try Camels. Smooth, fragrant and mellow mild, from the first touch of the flame to the final puff, Camel will mean a revelation to you of tobacco goodness.

For pleasure unalloyed, for the best that's made regardless of price, "Have a Camel!"

R: J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.
