Drexel Evening School

COMMUNITTERS

Unemployment Situation Does Not Seem To Affect Students

A recent survey of the student body of the Evening School indicates that, numbering over 3,500, residents of Philadelphia, numbering one hundred and twenty, are attending Drexel for a variety of purposes, and that the total number of students attending Drexel is over 15,000. This is the highest number ever reported. The situation is further complicated by the fact that many students are attending Drexel not only for one semester, but for a number of semesters. It is estimated that the total number of students attending Drexel for a number of semesters is over 10,000. This is the highest number ever reported.

MAIL BOX TAKES WALK

What a view! Where's the mail box? Even the high and mighty seniors felt like casual students when the mail box was placed on the campus. No one seemed to mind. It is best not to find out.

DREXEL DRAGON REJUVENATED

Drexel Dragon Rejuvenated

Last year the Dragon made its debut at the pop meeting for the first time. This year, after a long absence, the Dragon made its return and its dynamic actions at the game was due to a new make-up.

As a result, a small group of loyal men set work on the huge task of getting a new suit for the Dragon. The suit was knocked up and a new set of teeth was installed to replace those that were destroyed last year. A new set of teeth was installed to replace those that were destroyed last year. The Dragon, (if it was a beast), shows no sign of weakening and better than ever. Its breathing facilties have been greatly improved ever since. A small touch of trilithonite has been placed in the head with teeth bearing to make the head more comfortable. The Dragon is fast enough to catch the liquid oxygen in the air as the air is forced through the breathing tube of the Dragon. The fact that it has been slightly altered by a new root of paint is in order to meet the demands of the league offing.

Believe it or not but Dragons are better. Come on out to the pop meeting tonight and see it in its new gear.

DREXEL DRAGON

Dread to Gain Victory in Seven Long Years

Tomorrow at 2:30 P.M. in the inner field, Drexel will meet St. Joe's, a team of the Philadelphia high school class. St. Joe's is the first institution to hit Drexel ever since Drexel entered the Philadelphia high school class. Drexel is the first institution to hit Drexel ever since Drexel entered the Philadelphia high school class. Drexel is the first institution to hit Drexel ever since Drexel entered the Philadelphia high school class. Drexel will be in on its best form and come out to the pop meeting tonight and see it in its new gear.

STUDENT COUNCIL ADOPTING HABIT

Will Continue Freshman Regulations; Pass Motion

On Class Rings

The Men's Student Council at its first meeting on October 6, 1930, passed a motion to continue the Freshman Regulations for the next semester. The motion was moved by C. H. A. Brown, seconded by W. D. McLaughlin, and carried by a vote of 17 to 3.

Dr. E. L. Oberholtzer

SUNSHINE MEN HOLD ELECTIONS

Bobi Oberholtzer is Elected President for Fifth Year By Large Majority

For the last time at Drexel, on Wednesday, October 28, the class of 1933 elected their class officers. The election of the President of the Class of 1933 was won by Bobi Oberholtzer. Oberholtzer was elected President by a very large majority. Oberholtzer is a very active student, and his election was a great triumph for his many friends.

DREXEL TRiANGLE

The Harvard "Crimson" prints a "Confidential Report of the three schools. For 1929-30 the enrollment was 7.5. Of this number the greater part were Freshmen and Sophomores. The entering courses are harder than those of the other two schools and the change represents a decided trend toward a more liberal curriculum. Those who have dropped here is no greater than the average of other schools. Most certainly a technical preparation, a capacity for detailed work, and an ability to work under pressure, are the qualities most needed. There is yet hope; assiduous application will bring up the lowest to the average of the high schools of the city. For those who have not been quite successful so far there are the opportunities of the night school, which is given in the daytime to make up for the poorer work. The result, with the kitchen crowd easily outdone by the girls in the living room and made short work of the things they have to do, is a fairly young lady, ready to learn something. She is well liked, and the kitchen people are pleased with her. She has been found to be a fine student and is doing very well.

Redmond, Hughes, Labov, Star
Attack, Passes Win Way To Victory

Last Saturday, November 1, the
Dragons, bade into a lighting fire
by two straight and unadorned
defenders, encountered at Chesterton.

A Forum on Industrial
RELATIONS PLANNED

A project of having college stu-
dents investigate the labor
situation in the industrial depart-
ment of the Y. M. C. A. several
weeks ago has resulted in the
organization of a group of stu-
dents and held group discussions
among themselves and with
each other. The group has met
twice a week to discuss the
industry in general and
the individual conditions
in the various industries.

The club has decided to
publish a book on the
subject, which will be
sent to the manufacturer
in the various industries.

The activities were under the direction of Mr. Oggenfuss and Miss Margaret S. Frye of theto the Home Economics Club was held Oct. 27, Anne Fox was taken into the Alpha Delta Phi. Further information can be had at the library of the Home Economics Department.

The Alpha Delta Phi is a national sorority with chapters on many of the campuses throughout the United States. The Alpha Delta Phi at Drexel is one of the older chapters, having been organized in 1900.

The Alpha Delta Phi is a social sorority, but it also has a strong scholastic component. The members of the sorority are required to maintain a high scholastic average.

The Alpha Delta Phi is one of the oldest and most respected sororities in the country, and its members are held in high regard on many campuses.
