FOUNDER’S DAY on Page 4
New Policies of Supply Store Are Announced

Supply store is now operating under the direction of Mr. George Hamilton, Jr., upon the retirement of Mrs. Agnes Hoswell.

The new policies are as follows:
1. Any book published may be ordered through the book store by placing a deposit with the order. This includes fiction, general reading, and textbooks.
2. Items for sale in the supply store will be priced wherever possible below the outside market so that students making purchases will be able to save on the retail price.
3. Any defective item will be replaced and an adjustment made.
4. Suggestions for improvement of stores, merchandise and service will be welcomed.
5. Every effort will be made to give the students the best service and selection of merchandise possible under existing conditions.

Mr. Hamilton hopes that these innovations will enable the supply store to better serve the students of Drexel.

FOUNTAIN BAR . . . . . 8:30 A.M.—4:30 P.M.
CAFETERIA LUNCHEON . . . 11:00 A.M.—2:00 P.M.
CAFETERIA DINNER . . . . . 5:00 P.M.—7:00 P.M.

"Look how it wiggles, Bruno—Sort of cute in a fuzzy way!"

Drexel Represented At Student Meeting

Drexel will participate in the Regional Conference of Student Unions on Friday, December 12. The convention will be held on Temple's Campus, and its representatives from Drexel will be Mr. Andrewsavage, Al Hahn, and Marlene Compton.

The purpose of this meeting is to discuss problems relating to Student Union management and activities. The program will begin at 10:00 a.m., with a dinner at 6:30.

Problems to be discussed at the convention include the following: comparison of the systems of Student Buildings at different colleges; differences between wants and needs of the students; how students are informed of the facilities available for them in Student Buildings; and special problems such as the independent student versus the fraternity or sorority members.

Drexel's delegates at the meeting hope to obtain ideas from other schools to be put to use in our own Student Building.

"I always smoked Chesterfields in college just like my friends" says New York secretary, Elizabeth Lydon, "and here in New York it seems like almost everyone smokes them."

Elizabeth Lydon DUKE '51

AND NOW—CHESTERFIELD FIRST TO GIVE YOU SCIENTIFIC FACTS IN SUPPORT OF SMOKING

A responsible consulting organization reports a study by a competent medical specialist and staff on the effects of smoking Chesterfields. For six months a group of men and women smoked only Chesterfield—10 to 40 a day—their normal amount. 45 percent of the group have smoked Chesterfields from one to thirty years for an average of ten years each.

At the beginning and end of the six-months, each smoker was given a thorough examination including X-rays, and covering the sinuses, nose, ears and throat. After these examinations, the medical specialist stated . . .

"It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."

Remember this report and buy Chesterfields . . . regular or king-size.
Students of Drexel unveiled a plaque dedicating the Business Library to the memory of the late A. E. Blackstone who joined the Institute staff in 1918 and served as Dean of the College of Business Administration from 1942 until his death last year. The plaque, donated by the Men’s Student Council, pays tribute to the dean’s “valued friendship and faithful service as a teacher and administrator.” The ceremonies were held last Wednesday, pictured above are: A1 Hahn, Walt Picker, Dick Jamison, Harold Blackstone, a son, Mrs. Gladys McDevill Blackstone, the dean’s widow.

IN MEMORY OF A DEAN

In December 1952, Drexel announced a Tentative Expansion Program Plans. The third phase of Drexel's expansion program seems to be on its way. The basic science building may be started early next spring if the necessary funds arrive. The original estimate of $4,000,000 for construction of the building may be somewhat higher by the time the work is started because of the recent increase in prices. So far $600,000 has been subscribed by 122 industrial contributors. Eighty-four companies have still to make their pledges.

If sufficient funds are not available by next spring, the decision is as to whether or not the building will be started at that time will be left to the trustees. However, Mr. Hinter, present head of the expansion program, feels very optimistic at this time.

Drexel’s new modern cafeteria will house all the physics and chemistry laboratories. The present labs are now very inadequate and outdated, and for that reason have to be replaced by one means or another. The space made available by the removal of these laboratories from the main building will be used for laboratories and classrooms by the College of Business Administration.

It is estimated that the construction of the building will take about one and one-half years after the initial ground-breaking. Much of the equipment now in use will be transferred to the new building, but the members of the expansion committee are hopeful that much new equipment will be purchased.

The need for this expansion has become acute in recent years. A check of employed engineers in the Philadelphia area showed that approximately one-third of those studied at Drexel. The present increase in the number of industries in the area, plus the increasing complexity of modern production methods, emphasizes the need for a larger, better trained group of engineers being made available to industry annually.

So far Drexel has been Philadelphia’s largest primary source for high grade engineering talent. Since the present tuition charges nowhere meet the true expense of educating an engineer, and few could afford to pay a tuition that would meet this cost, local industry will have to contribute its share if Drexel is to continue in the role that it has held for the last half century.
Pan-Hellenic Council Holds Bazaar In Court

The second annual Pan-Hellenic Bazaar will be held next Wednesday in the Great Court, sponsored by Drexel's sororities.

Each of the four sororities will contribute homemade cookies and cakes, and handmade argyle socks and white elephants which will be sold in order to secure additional funds for the operation of the Pan-Hellenic House.

Here is a chance for you thoughtfully students to obtain your Christmas presents early.

Tuition Raised

(Continued from Page 1)

The new increment in tuition and fees will go into effect after the Christmas break and will be called the 1952-53 tuition schedule. It is the first increase in tuition since 1947.

According to Dr. A. V. Astin, Director of the Division of Business Administration at Drexel, the new tuition schedule is not only a necessary increase but a realistic, current cost data, it has been necessary to increase Drexel's tuition charges in the same period by approximately 15%, 25% less than the national average.

Sweet Young Thing: "Did my father order some coal this morning?"

Coalman: "This load of coal is for a Mr. Zell."

Girl: "That's fine. I'm Gladys Zell."

Coalman: "Bo am I."

Sweet Young Thing: "I love Mammas hot tea more this morning."

"Ye Gads! She wastes time with him and we owe the grocer $10."

Granny is now eighty-three, and yet she's sassy and puckish - Her motto is a simple one: Be Happy and Go Lucky!

Dulcinea Davis
Fresno State College

FOUNDER'S DAY NEXT TUESDAY

(Continued from Page 1)

The Gim Club will then sing "Gloria in Excelsis" followed by a double quartet singing "O Holy Night." The orchestra will play "March of the Toys," under the direction of William Brown.

Dr. David H. Dawson, graduate of Drexel's School of Chemical Engineering, 1922, will introduce the Founder's Day speaker, former Dean of Men, Dr. Leon D. Stratton. Dr. Stratton, a distinguished leader in the field of chemistry, will discuss the fundamental changes in Drexel's chemical engineering department from 1920 until the time of his retirement.

Other musical numbers of the afternoon's program are "Benevolents," a duet by Leon and Shirley Cusick, and "Christians Wake," written for chorus, organ, and brass instruments by Professor Heaton. This is the first public performance of this number which is dedicated to members of Drexel's Gim Clubs.

Shirley Parsons will sing "O Holy Night!" and the entire Gim Club will present "O Thou that Tellest," from Handel's "Messiah." The solo part will be taken by Marry Whitaker. The Founder's Day program will conclude with a medley of Christmas carols and the "Hallelujah Chorus."

The entire program has been arranged by the Public Observances Committee composed of members of the faculty under the chairman- ship of Dr. Hanson. Invitations have been sent to parents of the members of the various musical organizations at Drexel, the families of faculty members, and members of the expansion committee. This committee aspires to all occasions at Drexel to which students and the public are invited.

Lucky Strike Better. Luckies taste better-cleaner, fresher, smoother.

Ask yourself this question: Why do I smoke?

You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better-cleaner, fresher, smoother? Why? Because Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco.

So, for the thing you want most in a cigarette... for better taste-cleaner, fresher, smoother taste... Be Happy—Go Lucky!
Graduates of 1953 Assured Of Employment; 250 Firms Expected to Interview Seniors

The Placement Office this year expects to have 250 companies building for the services of the 1953 graduating class. On the basis of replies to questionnaires sent to those companies, engineers are in the greatest demand, but there are also positions for students in the technical and non-technical groups. Whereas there are not nearly as many companies demanding metallurgical engineers as there are chemical engineers, the number graduating does not nearly fill the quota.

The following table was made from the data received. These companies reported a total of 3,844 positions open, which they hope to fill with the nation's crop of graduates. These positions could be broken up into technical and non-technical groups. For technical students there are 1,064 positions and 1,275 positions for non-technical students.

Mr. MacMurray, head of the Placement Office, stated that two-thirds of last year's graduates were employed through the placement office. These are placed either in companies where they acquired jobs on their own initiative or entered the armed services.

14 SCHOOL DAYS A YEAR
Eight weeks and a college degree.
Students go to college 14 days out of every year, according to the "Southeastern," at Southeastern State College, Okla. Here's how the paper figures it: Out of 365 days a student sleeps a third of this—eight hours a day. This leaves 241 days. Then there are 52 Sundays. Take at least half a day per day off for lunch and three months for summer vacations. This leaves 91 days. Now subtract 52 Saturdays, a couple of weeks for Christmas vacation; three in spring vacation and the Thanksgiving week-end. We're left with two weeks of school each year.

Hall Restrictions...
In reply to a query, "Do men need dorm rules," one of Georgia Tech's students replied: "I think the dormitory restrictions on girls are all right. Some girls just don't know right from wrong. Yes, I think there should be some rules placed on the boys about getting in at certain hours. That would help the girls get in earlier, too.

In a general dormitory in the Midwest, it is the senior class who is the responsible one. They are the ones who have to get up early and get the dormitory ready for the incoming freshmen.

On Other Campuses

While browsing through some of our exchange papers looking for jokes we could steal, we ran across the following article in the George Washington Hatcher: The Air Force ROTO is including in its program this year a group of ROTC students.

According to the Squadron constitution, the mission of the squadron shall be "to give active and wholehearted assistance in all military and social functions of the University's AFROTC corps of cadets, and to perform any other tasks necessary to further the mission of the Air Force ROTC at Drexel University."

(The Air Force gets all the breaks!)

Lucky You

We assume that if you are healthy enough to read this item, you were not involved in a serious automobile accident in the last year, either as a driver or as a pedestrian. That is why we entitle this, "Lucky You."

More than 52,000,000 motor vehicles travel more than 60,000 miles in the United States last year. This is an all time record, an achievement we could boast about were it not for an allied record. All those cars, trucks and buses rolling all those miles killed over 37,000 persons and injured nearly two million in 1951. Lucky you.

Or perhaps it isn't entirely luck. Perhaps you are the pedestrian. On many a day you may be the driver who knows all the rules and obeys them to the letter; whose car is always in perfect condition. You may be the driver who is invariably courteous and who never takes a drink before he drives. You may be the pedestrian who is always alert; who never takes an unsafe shortcut. And with all this, you may be so charmed when you drive or walk that you are never caught by circumstances beyond your control.

If you answer this description, than the following facts and figures are not for you. But if you fall short, we hope you will take a glance at some of the statistics below and let them sink in—lest you become a statistic in next year's editorial.

If you are a spacer, you have been skating on mighty thin ice even if you haven't had accidents. Statistics show that one out of every three drivers involved in 1951's serious accidents was speeding. Nearly 14,000 persons were killed and more than half a million injured last year by drivers who were exceeding the speed limit. Percentage wise, speeding accounted for 42.2% of the nation's accidents. Just a lot of numbers, but how much we mean when the casualty reports from Korea list a few hundred casualties and another couple hundred wounded in action. We think it's outrageous to lose our young men in battle, but we shirk our shoulders when we bump off several thousand youngsters a year on our own highways.

Although pedestrian injuries were reduced by 9000 over the previous year and fatalities were held in check, there were still more than 300,000 pedestrians killed or injured in 1951. And this is supposed to be a civilized country!

For those of you who think you are saving time when you are speeding, the following report of a test made in Kansas should be enlightening. Two drivers participated in a road test on a 293-mile stretch of road. Their performance figures under typical driving conditions read as follows:

<table>
<thead>
<tr>
<th>Driver</th>
<th>Average Speed</th>
<th>Miles</th>
<th>Fatality Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>30 mph</td>
<td>125</td>
<td>1 in 60</td>
</tr>
<tr>
<td>B</td>
<td>40 mph</td>
<td>60</td>
<td>1 in 10</td>
</tr>
</tbody>
</table>

Was it worth it?

If you are driving, let common sense be your guide. Don't insist on the right of way. It doesn't make much difference whose fault it was if you kill yourself.

"But professor, wouldn't it be worth an 'A' just to see my face light up?"

The Question Box

Student-Faculty Relations

"What do you think about student-faculty relations? How do you feel these relations could be improved?" These questions were posed to several students during last week. They were felt to be appropriate since the feelings between students and faculty are quite essential to the operation of a college. Below are the opinions of four students.

MARLENE COMPTON, Sophomore, Four-Year Secretarial

I believe that the most general complaint that the Drexel student has with his instructors is that each instructor seems to believe that his course is the only course being taught. Therefore, the teacher feels justified in giving several hours of homework each night. That is impossible to do when the student has other homework of the same intensity.

Most teachers, I have found, are quite willing to be helpful to the student outside of class, and I believe, is as it should be, but why, then, do some of them insist on treating adults or near-adults like children in class.

JO AN MacDONALD, Freshman, Administrative Assistant

I find the professor-student relationship at Drexel very good. There is little to my knowledge that could be done to improve the present relations. On the whole, I find my teachers understanding and easy to work with.

Letters Column

See Us in January

Dear Editor:

I saw in last week's Triangle an editor's note stating that you need some volunteers to help in getting out the Triangle to the students in industry. I would like to help.

I am, however, just a freshman, not a student in industry.

If I can help in any way, just let me know and I shall be more than happy to cooperate with you all.

If you have something I can do for you, just tell me what, when, where, and how. I'll be glad to do it.

Sincerely,

V. DAHELL
ALPHA PI LAMDA

Have you noticed how "Uncle" Tom and "Little Orphan" Annie have been kept away from campus? Well, don't lose all that it's, but the better half is keeping it going. Comrades did a fine job in the cellar over the holidays. Don't know how they did it but we do know that it was a lot of fun and the ladies' boys were quiet around the holidays. . . . Everywhere seems to be buying jeweled pins. . . . Will see everyone at House and Robe show and house dances afterward.

DElTA SIGMA EPSILON

Welcome back from the long vacation which we enjoyed last Christmas. What's the matter? Pledges went on a scavenger hunt Monday night and returned with some slick articles.

TAU KAPPA EPSILON

Pledges went on a scavenger hunt Monday night and returned with a little Christmas present. . . . Bill Durako's been keeping up and raring to go to work for the Panhellenic Bazaar. This will be held on Wednesday, December 19.

PHILADELPHIA PROVIDES VARIETY OF SHOWS

In the last few weeks, two favorites of mine are coming through town in road shows, "Paint Your Wagon" and "Call Me Madam." "Paint Your Wagon" is starting at Shubert on Monday and "Call Me Madam" will be at the Forrest for the holidays.

I saw "Paint Your Wagon" here last season. At that time I starred James Barrie, master of the soft shoe dance and the drunk act. With Tony Sarsas as the excellent singing lead, it was a very enjoyable show.

I caught "Call Me Madam" in New York with the original cast, Kirk Norman and Paulront. Speaking of "Call Me Madam," I saw three of the top musical comedy stars that week-end in New York: Judy Garland at the Palace, Ethel Merman in "Call Me Madam" and the late and great Gertrude Lawrence in "The King and I." Yet, I would say that none of these great singing stage personalities has any voice to speak of. The talent of these great entertainers lies not in their singing voices, but rather their ability to project themselves across the footlights.

I wonder what an out-of-town-er would have said had he glanced at an announcement page in the last few weeks. At one time, we had "Time Out for Ginger," "See the Jaguar," "I've Got Sixpence," "Summer and Smoke," "I've Got My Motor Running," "The King and I." Yet, I would say that none of these great singing stage personalities has any voice to speak of. The talent of these great entertainers lies not in their singing voices, but rather their ability to project themselves across the footlights.

The best of the out-of-town organizations was the Footlighters. With Tony Sarsas as the excellent singing lead, it was a very enjoyable show.

There's only 26 shopping days till Christmas, but what is worse there are only 15 flunking days, no PLUNK NOW AND AVOID THE RUSH!

SIGMA SIGMA SIGMA

Congratulations to two Tri-Sigs who were initiated last weekend. Donna Rupert is wearing the Lambda Chi pin of Bill Bergman and Leigh Marshall is wearing Bob Glaister's Apple Pie pin.

Pi Kappa Phi deserves an Oscar for their fine show. We thought it was a very well and was a huge success.

DELTA KAPPA RHO

Greetings from Birdland! And it came to pass that on the seventh day the sun shone, Yea Yerly! Courage and irrefutable determination have paid off. Delta Kappa Rho has won a football game. The Lord was with us. I shall go to church next Sunday.

Delta Christmas card and Happy New Year to all you crazy people from the brothers of Delta Kappa Rho and me, too. It's been real crazy.

LAMDA CHI ALPHA

For away the pleasant hamlet and bower, Thanksgiving is over and the house is once again normal. Well, almost normal—Davey Jones seems to be having minor difficulties in readjusting to school. The Jaguar, "I've Got Sixpence," "Summer and Smoke," a Gilbert and Sullivan repertory company, and the Mask and Wig Club on one stage. The concert hall featured the Philadelphia Orchestra and the Metropolitan Opera Company along with a host of lesser attractions. Along with her many museums and night clubs, Philadelphia deserves a high place in the cultural and entertainment centers of this country. The real pity was that with all these theatrical attractions, most of them very fine, the only one to claim the real financial success was the light comedy "Time Out for Ginger."

Bus. Ad. Goes Out For Team

by Djangos (Pronounced 'Jozas')

Last week I became interested in extra-curricular activities. I decided at once to play a varsity sport—for two reasons. One, to get a letter, and two, to get my money's worth from my athletic fee.

I consulted my varsity counselor about the matter. At once I was told that football, track, wrestling, and lacrosse were out of the picture (because of various reasons too numerous to mention here). This left me a very small choice.

I decided to look at a golf club and beet golf immediately. For some reason a headless racquet was just as appealing. At this time I was advised by my associates to give up altogether. But, lo, just as I began to lose hope in myself my natural instinct was awakened, as I was led by my bosom friend and companion, Bird Bashoe, to a smoke-filled back room of the Student Building basement. I was nervous and excited as we descended the spiraling steps to-gether.

Here to my watering and sur- prised eyes I witnessed two most unusual athletic events. Both were played on long green tables, but one had "dancing" on (something) employed one little white ball, while the other (called "croquet") had colored croquet balls, and it really intrigued me.

It was at this moment I decided to make up my sport, I watched attentively, then eagerly looking gay poking a long stick at the ball.

Then, looking around, I noticed the character of these men sitting about the table. But, before I could get my eye on the ball, I was awakened.

Congratulations to the Pi Kaps night! I long pole—he kept his mind on the picture (because of va-

Hug: 9 attempts, 6 completions, 1 interception, 760 yards gained, 7 T.D.'s. Loweree: 7 attempts, 4 completions, 4 interception, 157 yards gained, 1 T.D. Total Offensive Leaders

Gross: 103 plays, 676 yards gained, 705 total net yards. Loweree: 101 yards, 399 net yards, 5 plays, 15 total yards. Pass Scoring Leaders

Hugg 11 attempts, 121 yards gained, 3 scoring passes. Gross: 9 attempts, 99 yards gained, 1 scoring pass.
VOLUME XXXI DECEMBER 5, 1952 NUMBER 15

While racking up 138 points they produced top teams this year that deserve special mention. Pi Kappa Phi and Lambda Chi. The Pi Kaps have compiled an enviable record of six victories and no defeats not including the same to be played. These four will form the nucleus of this season’s squad.

Women’s Corner

Full Schedule of Sports Ready For Winter Term

Finishing out the fall sports program, Judy Vogt will meet Joe Moore in the semi-finals of the open ping-pong tournament. The winner of that match will vie with Helen Lahinsky for the title. Sixteen players entered this fall tourney.

The winter intramural program for the men continues with the Glee Club and the Dramatics Club as the teams that will compete in the basketball tournament. Games will be arranged for each team to play every other team once. A final in basminet will also be arranged for winter term.

Basketball practice officially began this week when Coach Mary Fetter met with many of the 10 women who have already signed up to play in the 1953 season. For anyone interested in playing basketball next term, it is not too late to sign up at the gym office. Two important practices have been scheduled before winter term begins and they will be held November 14 and 18 in the women’s gym from 10 to 12 a.m.

Listed on the schedule of games for the winter term are Fuder College—the first game which will be played at Swarthmore November 28, Rosemont, Bryn Mawr, Chesterhill, Hill, and Allbright.

\[ \text{IF Crown Undecided; Playoff Game Sunday} \]

There has been considerable activity in the interfraternity football league since the regularly scheduled season ended two weeks ago. At that time Pi Kappa Phi was proclaimed as the winner of the IF grid championship. Fifteen of the sixteen teams were placed in the first division following the games played Wednesday Night. The last game was played yesterday between Pi Lambda Chi and Lambda Chi. Pi Lambda won the game 15-0 and thereby clinched first place in the IF grid.

The results of the playoffs could possibly change the league standings and the overall points. The standings not including the disputed games are as follows:

<table>
<thead>
<tr>
<th>Team</th>

\[ \text{Four Grid Players Make All-Foe Team} \]

Four Drexel Jayvee football stars were named to the Borden-town Military Institute “All-Foe” team, Joseph Kwapisz, tackle, and Lou Solarz, back, made the first team honors. The Crystal Ball will use Prometheus as the workhorse to carry them across the field. They are adept, both as a ball handler and rebound man. Prometheus expects to use Prometheus as the pivot with Vic Quadrini and Evans Morrison playing on the line. The Jayvee’s are expected to outshine the other team to a large extent. The five hundred pounds on the defense will not make the difference.

Prometheus expects to use Prometheus as the pivot with Vic Quadrini and Evans Morrison playing on the line. The Jayvee’s are expected to outshine the other team to a large extent. The five hundred pounds on the defense will not make the difference.

\[ \text{Foe Squad Named} \]

The entire squad is awaiting the Coroner’s report on January 13 with Rutgers University of New Jersey, being made this season with 6 of 1993’s 9 home games being played at Sayre Thursday Night. It is up to the students to support all of the games; especially the games at Sayre and the two at Community College.

The Crystal Ball is being readied by Coach Tom Miller and he reports that he has 28 1953 graduates selected for the openings on the squad. He is watching several outstanding sophomores, and Jim Harley. The first JV needs a manager to run the team, and Vic Quattrini and Evans Morrison will be back, along with Lou Solari, back, who will replace Ulmer. Wrestling season begins January 10 and, and it will be a long season with my 1952 All-American in the line up. Among those up from JV last year are Vic Quattrini and Evans Morrison. The Ivyaggies in the last three渲染s will have the best team of the Ivyaggies in the last three渲染s. By Soccer Team

Prometheus expects to use Prometheus as the pivot with Vic Quadrini and Evans Morrison playing on the line. The Jayvee’s are expected to outshine the other team to a large extent. The five hundred pounds on the defense will not make the difference.

The highlights of the coming campaign are the two appearances of Drexel in Convention Hall. On both occasions, the Dragons will be playing in the second game of the doubleheader. January 24 they are host to West Chester State Teachers College and on February 24 they again are host—Swarthmore College.

Captain Primiano says that the squad this year will be young, but the willingness to win and general team spirit and hustle are exceptionally high. He relates that after a week of practice the squad looks much better now than it did two weeks ago. He adds that because of the late start in practice there could be a slow start before the season opens.

Drexel’s first game is against University of Delaware on January 10, and Miller is looking forward to a successful campaign similar to last season’s championship one.

\[ \text{Star Athlete Drafted} \]

The Drexel Tech Wrestling Team suffered a jolt this week when it was announced that Joe Willard, 1953 All-American, will be leaving Drexel for the NFL. Willard, 6’6”, 235 lb. man and his brother are expected to play for the San Francisco 49ers. Coach M. J. DeBlassie is not sure as yet who will replace Willard, but he will be named before practice begins at the beginning of the season.
