By Brian B. Goodman

The Drexel student branch of the Institute of Electrical and Electronics Engineers (IEEE) sponsored the Philadelphia Student-Professional Awareness Conference (SPAC) on Tuesday, April 7, in conjunction with IEEE branches from Wilam University and the University of Pennsylvania. Over 100 students were present to discuss the conference which allowed students, engineers, and students to express their views on the importance of IEEE.

The SPAC conference was held in the Engineering Center. A panel of guides with various background experiences gathered to discuss the importance of IEEE. The guides included Richard Wooding, a professor from Drexel's College of Engineering and David Kosinski of the Penn Student Council. The guides were able to discuss the importance of IEEE in relation to the real world. The student's were able to ask questions and receive answers from the guides. The guides were able to explain the importance of IEEE in relation to the real world.
Frida y, April 10, 1987

The University has issued a policy statement recently outlining the implications of what is known as Senior Privilege. This privilege affords a student one opportunity to take an additional final exam in courses for which they are enrolled during the last term of their senior year.

The statement stresses that Senior Privilege will apply only under the conditions outlined above and that the privilege does not excuse students from attending class and taking final exams in courses for which they are enrolled during the last term of senior year.

Math Awareness Week
April 15-19 is National Mathematics Awareness Week, a week when mathematics across the nation will be highlighted. The hope is that the public will take an interest in the beauty and challenge of mathematics.

In celebration of the event, Dr. Jet Wimp, Drexel professor of mathematics, will be giving a special lecture entitled "How Do the Little Men in the HP-15C Do It?" The lecture, intended for a student audience, will be given Thursday, April 18 at 2:30 p.m. in room 210 of Commonwealth Hall. Refreshments will be served after the presentation. Students are urged to bring pocket calculators and join the fun.

Nicaragua trip uses technology to improve relations

Concern problems to solve and many co-op opportunities in a beautiful and exciting country.

Why is Nicaragua doing all these things and with all this worried and innovative work that are they still undeveloped?

Immediatly the trip started and the problems started. Although it went by a different name; "use it or lose it." This means that landowners could keep all their land as long as they produced on it. 70% of all arable land in Nicaragua is still privately owned with present co-operative owners working 23% and the government owning the remaining 7%.

Large landowners who co-operatively produce on their land are held up as models for people in "petroleum producers."

In the business arena, minimum wages were established and standard working conditions and practices were put into law. Businesses were set nationalized unless the business in question was going to desert the country with all its assets. The same rule of thumb is still enforced today.

The Sandinistas also realized that the country had been bled dry for 30 years by Somoza and his cronies and that the country was on the verge of collapse. They knew it would take a revolution nearly 8 years ago to bring about the changes that were necessary to fight back the United States. Their agrarian land reform was instituted in which there was one basic rule: use it or lose it. This meant that landowners could keep all their land as long as they produced on it. 70% of all arable land in Nicaragua is still privately owned with present co-operative owners working 23% and the government owning the remaining 7%. Large landowners who co-operatively produce on their land are held up as models for people in "petroleum producers."

In the business arena, minimum wages were established and standard working conditions and practices were put into law. Businesses were set nationalized unless the business in question was going to desert the country with all its assets. The same rule of thumb is still enforced today.

People here are fighting now so that their children can live in peace and freedom.

Baby M goes to court

Over the past five months, the public has been aware of the trial of Baby M. Most people familiar with the basic facts of the case. Mary Beth Whitehead signed a contract to be a surrogate mother for a couple of a baby for William and Elizabeth Stern. She gave birth to the baby in July 1986, but shortly thereafter, the child was taken from her by court order.

The Sterns went to court over the issue. The Library Director, Richard Stern, decided to write a column about the situation, and the decision was made to use the lounge area in the library.

It almost seems like the library is the creator of its own problem. By choosing to have a lounge area in the library and allowing students to eat there, they are almost inviting disaster. But now is not the time to pend on the lounge, the library has no desire to close it down. However, if the students continue to abuse the lounge, measures will have to be taken.

The library does not want to be perceived as the "bad guy." But if quity staff members have to tell students not to eat outside the lounge.

The staff of the library is serving an orientation, and I think we should be thinking about what is the notion of the student body aware of the fact that if they abuse the lounge, they will have to leave.

I think that the lounge area is not at all humorous and is totally out of context. I would like to see the staff of the Library for sharing their paper with me. I enjoyed it very much.

Mixed reviews are heard about joke issue

I'm not sure if anyone has noticed it yet but the Triangle has been a lot of fun this past month. I have enjoyed reading it and have found some of the articles to be quite interesting. Some of the articles have been long and involved, but I think that they have been well worth the time.

The Triangle April Fool's issue was a lot of fun. I enjoyed reading it and have found some of the articles to be quite interesting. Some of the articles have been long and involved, but I think that they have been well worth the time.

Phyllis Davids

New Library Pig Pen

I got a phone call from a dad about a week ago. He (Jim Labrie) works over in Hagerty Library doing what he does best. He was talking about the library and how it could be improved.

At the beginning of the trial, a court-appointed social worker had decided that the Sterns (the parents of Baby M) were not fit to care for the baby. During the trial, however, the judge felt that the Sterns were not fit to care for the baby. During the trial, however, the judge felt that the Sterns were not fit to care for the baby.

It almost seems like the library is the creator of its own problem. By choosing to have a lounge area in the library and allowing students to eat there, they are almost inviting disaster. But now is not the time to pend on the lounge, the library has no desire to close it down. However, if the students continue to abuse the lounge, measures will have to be taken.

I think that the lounge area is not at all humorous and is totally out of context. I would like to see the staff of the Library for sharing their paper with me. I enjoyed it very much.
upholding a binding contract. The judge's only sensible solution was to award custody to the Sterns, which was certainly in the best interest of the child. Sorkow's job was to look at the case from a legally justifiable point of view, not a moral one, and that is what he did. Although other cases may use this decision as a legal precedent, it will be very interesting to see what happens in a future case where both parents can provide stable homes for the child. Maybe then we'll see a really controversial decision.

Whose field is it?

Editor:

It was a beautiful Thursday afternoon when my friends and I decided to take out our Softball gear and head down to that luxurious Drexel Field to play that good old American sport of Softball. As we drove through the pretty white gates we saw to our amazement, empty fields awaiting our spikes, bats, and gloves. Only the Drexel baseball team was playing, so I decided to drive to the back of the field to see if the new softball field was also empty. If so, we would play there. As I drove I was shocked to see that yes, the J.S.A. (John Semanick Agency), comparable to the C.I.A. but far worse, was following us. It was a light blue van with a Drexel emblem on a disguise, he pulled up and said ever so politely, "You can't park here." So like a good boy I turned around and parked in the front. We walked to the back field, our spirits high, ready to hit that new softball. But wait, in the distance two uniformed agents better known as Wells Fargo Security approached us. The undercover agents who was pretending to lay lines down for the woman's Lacrosse team had told the G-men we were in the back field. The security guard, in a stern and well spoken fashion said to me, "Your guys can't play here, get out!" But I was a second I said, where can we play softball, or any sport for that matter if we can't play on our own field?

It ended up that we had to drive to Fairmount Park and play there. I understood that our field is small but some system should be set up where the students can use the field. Of course I know Semanick will have a good excuse because Drexel sent him to the College of Nazi Propaganda like most of the officials here at Drexel. I think it is time that Drexel realize that the students are not stupid and are fed up with the way we are treated. I think the word is oppressed.

ANNOUNCEMENTS

Friday—April 10, 1987

Triangle announcements are now listed by day. When placing an announcement, please mark your time opening with the event as if it should be listed as "Future" or "General".

Friday, April 10, 1987, am and 5:30 pm. Everyone is invited to worship in the Main Court. Tomorrow and May 12th, anyone can dance—mgrah a panther and info call the Dusert at 895-2579.

Admission is only $1 with Drexel ID. For more information, volunteer, or get involved, drop in to the Student Center, or call 895-2535.

Wednesday, April 8, 1987, 6:00 pm in room 3010 of MacAltree Hall. STELLA สีของวิชา_APPL. MATH., April 8, 1987, Call 327-5457.

Tuesday, April 7, 1987, 6:00 pm in room 3010 of MacAltree Hall. STELLA sak of วิชา_APPL. MATH., April 8, 1987, Call 327-5457.

Tuesday, April 7, 1987, 4:00 pm in room 215, Cretes Student Center. Join the Sailing Club and get hands-on experience in Real Sailing per.

QUESTION #4.

WHEN SHOULD THE COLLEGE STUDENT CALL FAMILY AND FRIENDS?

a) During weekends until 5 pm Sunday, and from 11 pm to 8 am Sunday through Friday, to save over 50% off AT&T’s weekday out-of-state rates.

b) The minute your bank statement reveals a negative $60 balance.

c) Between 5 pm and 11 pm, Sunday through Friday, to save 38% off AT&T’s weekday out-of-state rate.

d) With AT&T, any time you want a clear long distance connection.

e) When you hear they’ve removed the mysterious "Venetian Blind" ritual from your fraternity initiation.

You’ve just aced the calculus exam that you’d been dreading like the plague. Your date last night told you she had an “out-of-body” experience. Your roommate joined a new cult that worships luncheon meats.

When you’re away at school, there are a million reasons to stay in touch with the people you miss. And there’s no easier way to do it than with AT&T Long Distance Service.

During the upcoming calling periods, and our everyday high quality service, the best time to call with AT&T Long Distance Service is any time you want to say “Hello,” or “Guess what?” or “You won’t believe this, but..."

For more information, give us a call at 1-800-222-6300.

SCENE OF THE CRIME

by William Frati

Orange Staff Writer

Catherine Deneuve, that extremely elegant and beautiful actress, seems to be having some trouble finding a really good movie to make these days. Her previous effort before *Scene of the Crime* was *Love Songs* (now on video tape) and was just plain silly. *Scene of the Crime* offers more but still doesn't deliver.

Thomas is a resilient young boy. He habitually lies and is alienated from his family and peers. He's about to be thrown out of school on the eve of his communion. When he's riding his bike near his home one day and is attacked by an escaped convict, Martin, no one believes him.

Thomas' grandmother is too preoccupied with her communion and her brother Lili (Catherine Deneuve) who wants the best for Thomas doesn't know how to provide it for him. His teacher has had enough of his lies and is trying to throw him out of school.

What ruins this film is the whole sub-plot dealing with the relationship between Thomas, Lili, and Martin. When Martin first meets Thomas he feels they are wrong. Thomas' partner can catch a train out of town. For some idiotic reason Martin's partner tries to kill him. In order to save the kid, Martin kills his partner.

In some other context, this could have worked much better. Director André Téchiné has given correct Martin an added dimension by saving the kid. He's not your stereotypical cold-blooded convict. But this doesn't work because the kid should never have come back in the first place. What really makes this whole sub-plot silly is that Lili ends up in bed with Martin after she finds out that Martin is the escaped convict who threatened her son.

There are some truly glaring moments concerning the troubles of family life. LILI'S father can't just forget his daughter, so he just doesn't say anything about her choices when he feels they are wrong. Thomas' grandmother seems blind to any family problems at all and when the communion dinner is disrupted by a family squabble, she goes on as if all the harsh words meant nothing. All of this is lost because of the interweaving of the sub-plot.

What could have been never materializes: a decent film about family life. The ending to the film leaves the viewer somewhat confused and some loose ends dangling. But still Deneuve is Deneuve and it is always worth seeing. Her performance is subtlety good which brings a sense of authenticity to the silly sub-plot and makes the film as a whole enjoyable.

 surveys indicate that most people won't read this,

So, we'll talk quickly. We're Valley Forge Information Service and we conduct market research studies for fortune 500 companies and major advertising agencies nationwide. We've just opened a new office at 41st and Walnut in University City, and we're looking for talented people to join us as market research interviewers.

What makes V.F.I.S. so attractive is that you can choose flexible hours which are most convenient for you. Just schedule around any papers, tests, or parties that you have. Also, the short term nature of extra spending money and long term benefit of an additional resume can catch the attention of any college student.

Still interested? Then give us a call and we'd be glad to discuss our competitive starting salary, benefits, and advancement possibilities.

Spring Sports Summary

by Don Keiler

The Drexel University spring sports teams are off to a collective slow start so far this season.

The Men’s Baseball squad dropped a double-header to ECC opponent Delaware this week 6-1, 4-1. The losses lowered the Dragons’ record to 3-7 overall, 0-2 in the conference. The first game featured five strong innings by pitcher Doug Johnston, who protected a one run lead until the sixth when he tired. Johnston’s appearance on the mound drew scouts from Baltimore and Los Angeles to the game.

The Women’s Softball team also dropped a doubleheader this week. Tuesday, conference opponent Rider defeated the Lady Dragons 1-0 and 8-2. The two losses brought the women’s record to 3-7 overall, 0-2 in the conference.

The Men’s Lacrosse team defeated Villanova 16-9 Wednesday for their second win of the season. The Dragons feature a strong scoring duo of Tom Chernoff, who leads the ECC in scoring with 41 points (21 goals, 20 assists) and Pete Alvanos (23 goals and 8 assists). The victory over the Wildcats raised the team’s record to 2-4.

The Women’s Lacrosse squad fell to West Chester Tuesday. 19-6. The Lady Dragons are still looking for their first victory of the season as the West Chester loss lowered their record to 0-5.

In other Sports news, Drexel’s Lisa Schramm has been named ECC Softball Pitcher-of-the-Week for the week ending April 5. Schramm, a senior southpaw, hurled her 13th career shutout last week, defeating the University of Pennsylvania 3-0. Schramm allowed just two hits over the full seven innings, striking out four and walking four. Schramm also helped herself, going 1-for-4 at the plate and scoring one of Drexel’s three runs. The victory raised Schramm’s lifetime record at Drexel to 74-54.

The Drexel Baseball team has been getting a lift from freshman firstbaseman Bryan Bartlett. Bartlett, from Delran High School, is batting .348 for the Dragons with two doubles and four RBI’s. Bartlett has also been flawless in the field, having committed no errors in 50 chances.

IFA Championships

by Al Lord

On March 14 and 15 the Intramural sports Association (IFA) held the winter championships for basketball and bowling. The bowling championship between Pi Kappa Phi and Sigma Pi was held on March 14. Pi Kappa Phi defeated Sigma Pi in an exciting, nerve-racking contest. Sigma Pi won the first game, but Pi Kappa Phi came back to take the next two and win the match by forty pins. Tom Woodward lead the way for Pi Kapp with a three-game average of 188, including a match-high 198 in the second game.

Pi Kappa Phi won the basketball championship on March 15 as well, defeating Sigma Alpha Epsilon. SAE had won the regular season contest and was coming off an impressive victory over Sigma Alpha Mu in overtime of the semifinals. The championship game began with Pi Kapp hitting their first four shots while SAE missed their first eight because of Pi Kapp’s tenacious defense. By the time SAE had converted a field goal, Pi Kapp had a 10-2 lead. Pi Kapp never relinquished its lead as SAE could not come within ten points the rest of the way. SAE’s poor executing combined with Pi Kapp’s aggressive defense turned the game into a blowout as Pi Kapp won 67-43.

Spring term will feature softball and table tennis. The spring schedule begins in two weeks and starts the athletic year in the race for the IFA cup.

Applications are available now in the Dean of Students Office for the 1987-1988 Student Congress Elections:

You may apply to run for the following positions:

**Student Body President**

**Student Vice-Presidents: Student Affairs, Academic Affairs, Financial Affairs, University Relations, Administration, and Research.**

**Class Officers: President and Vice-President of each class year.**

**Student Deans: Business, Design Arts, Engineering, Humanities—Social Science.**

**Speaker of Congress**

**Secretary of Congress**

**Congressperson-at-Large**

**Chief Justice of the Student Court of Review**

Applications due in the Dean of Students Office Wednesday April 22!!!!
